In a presentation to APWU officers and staff on February 14, 2006 the following facilities were identified as being assigned the indicated role in the new network. Please confirm that this information is accurate or provide corrected information for any facility pairings that are in error:

- a) Boston P&DC will remain a multi-purpose facility.
- b) Current BMCs will become RDCs, with the exception of Chicago where the Busse P&DC will become a RDC.

**RESPONSE:**

a&b) Confirmed, that these statements were made in the context of describing what the END models have suggested. However, to-date, no final decision has been made regarding the number and location of RDCs in the network.
