### **Materials Requested By Major Mailers Association In Connection With Cross-Examination Of Witness Loetscher (USPS-RT-9)**

This Category 4 library reference contains two Excel workbooks, alldata2.xls and sitematrix2.xls. These two workbooks contain the data from the corresponding data files "alldata" and "sitematrix2" that were filed with LR-L-34, in a different format. At the request of MMA, the Excel files provide field headings for each of the data fields. The "alldata2.xls" file contains all records included in the original filing of LR-L-34 including the duplicate records that were removed in errata of LR-L-34 filed on December 13, 2006.
